### **How I approach this.**

Storytelling and communication through visuals is all its ever been about. For years I dreamed, than school gave me the language the work gives me the means. I've developed a varied group of skills both technical and intuitive, to tell the stories that are entrusted to me.

### **Other things that keep me well oiled.**

I keep the creative oil flowing through Dr Sketchy's Life Drawing, Tucson Drink and draw as well as continuing education to keep up on skills.
